## HOLDEN ELECTED TODAY BY ACCLAMATION IN VERMILLION

Acceptable to both Liberals and Conservatives and no Opposition Offered.

James B. Holden, of Vegreville, was today elected by acclamation to represent the Vermillion district in the Provincial Legislature. Mr. Holden will have the distinction of being the youngest member of the legislature, being only twenty-nine years of age.

The new member was born in Southampton, Simcoe County, Ont., being educated in the public school of that village. When but a lad he was apprenticed to the milling trade. In 1902 he came west to try his fortunes and worked for a time in the Flour Mills of Hon. Thos. Greenway, in Crystal City, Manitoba. Later he came to Alberta and settled in Strathcona, afterwards removing to Leduc, where he purchased grain. A boat one year ago he was appointed home-ward inspector for the eastern part of the province. He settled on a home-ward near Vegreville and during the year he has performed the somewhat difficult duties of his office, he has made many friends and is regarded as one of the best men in the service.

Mr. Holden is one of the promising young men of the legislature and is the kind of man who will be tireless in looking after the interests of his constituency. It has been understood for some time that Mr. McCauley would resign as soon as it was mooted Mr. Frank Fane, Conservative Candidate in the last election assured Mr. Holden that if he (Holden) was the Liberal candidate he would receive his (Fane's) support.

## CROP PROSPECT NEVER BETTER

Weather Conditions Good and Grain Progressing Splendidly

Winnipeg, July 16.—The wheat crop has passed another critical week and the crop report of the Canadian Northern shows that the outlook is rosier than ever for a bumper yield throughout the whole of the west. With three more weeks of favorable weather farmers will be busy reaping the biggest crop in history. Reports were practically all of an optimistic character. "Prospects never better," "A bumper yield," "Outlook magnificent," were some enthusiastic comments. From Emerson comes a prophecy of 40 bushels per acre. The most favorable report from Manitoba comes from Dauphin and the surrounding district, where the agent exhausted his superlatives in giving the outlook. In the Gilbert Plains district which Prof. Mayor described as not arable, the prospects are for a magnificent yield. All bulletins agree that wheat is at least a week ahead of last year. The district that reported rust is Belmont. It is expected the damage will not be heavy as the rust is not widespread.

## WORK RUSHING ON NEW LINE

More Than Ten Thousand Men at Present and Number Will be Doubled Next Month

Montreal, July 15.—There was to have been a meeting yesterday of the G.T.P. directors but the gathering was postponed. Construction from Port Arthur to Edmonton except the link between Winnipeg and Portage is making good progress. The only drawback is a scarcity of labor. There are so many railway contracts being executed both in Canada and the United States that contractors on the G.T.P. could give employment to several thousand more men than there are available. In spite, however, of the shortage, there are 10,000 men at work in different sections between Lake Superior and the Saskatchewan river and perhaps 1,000 more on Davis & O'Brien's contracts east of Quebec. One of the directors is authority for the statement that over 20,000 men will be at work before September 1st and this appears to be the key of the situation as far as having the road completed by the fall of 1907 is concerned. Railway men here state that a force of 20,000 men is sufficient to make good Mr. Morse's promise, supposing this army of laborers can be kept intact until the fall of next year.

## WORK COMMENCED ON C.P.R. FREIGHT SHEDS.

The erection of the C.P.R. freight sheds on Tenth street, was commenced on Saturday, the plans being filed at the city offices this morning. The sheds are being erected at the rear of Lot 87, near the corner of Jasper and Tenth, at the southern extremity of the yards, and the building will face on Tenth street. It will be of frame, 100x30 feet in size, and after the general style of freight sheds. A special gang of C.P.R. carpenters are engaged in the work, and will rush the building, which will be completed within a month. Two carloads of timber are expected today for use in the building. The sheds will have capacity for a large quantity of freight.

## DRUNKEN MAN SHOT HIS WIFE

Then Tried to Suicide But Was Prevented by His Son

Windsor, July 15.—His courage bolstered up to murder by whisky, Chris Shindler last night shot and killed his wife as she sat in front of their residence. She was slain in sight of four of her children. One of them, Robert, who witnessed the crime, snatched the revolver from his father's hand just as he was about to end his own existence. Struggling desperately the two rolled about, one battling with his mother's slayer, the other to place the revolver in such a position that he could blow out his brains. The youth triumphed and the murderer was overcome and held until the arrival of a policeman.

## MAN FROM FORT GOT IN TROUBLE

Tried to Pass Worthless Cheque and was Sentenced to Three Months

Winnipeg, July 16.—On Saturday Walter Bowler, who was held on two charges of forgery and uttering, and who has been behind the bars for a week pending an investigation into his past history was sentenced to three months in jail on each count. Bowler attempted to pass a cheque on a city merchant. The cheque had been made at Fort Saskatchewan whence Bowler hailed.

- BRITISH SHIP ATTACKED BY PIRATES.
- Canton, China, July 14.—Special.—The British ship Saiman was attacked by pirates.
- Dr. Macdonald was killed and Capt. Josling and four Sikhs injured.

## Real Estate Deal.

A sale was made today by the Great West Land Company of the property on Jasper avenue west of John Somerville & Son's hardware store. The lot has 47 feet frontage, is 150 feet in depth and is wedge-shaped being 163 feet wide at the rear. The price paid was \$22,500, the purchaser being Mrs. Cotes a visiting newspaper correspondent. The property was owned by Mr. Robt. Inglis.

## SPLENDID RACE AT THE REGATTA

(Special to the Bulletin.)  
St. Paul, July 16.—The senior eight row boat pulled off at Tonka Bay Saturday was another race which will go down in history as one of the greatest in the annals of the Minnesota Rowing Association. The Winnipeg crew with its nucleus of veteran oarsmen went across the line less than a length in the lead of the plucky Minnesota boat club crew. Less than a second later the Duluth crew shot across the line, being beaten for second place by a boat a row. The results were as follows:  
Junior four row, Duluth first; Minnesota second; Winnipeg, not finished. Distance, 1-1/2 miles, time 8:42.  
Junior, double, Minnesota, first; Fort William, second; distance 11-1/4 miles, time 8 minutes.  
Senior eight oared, Winnipeg, first; Minnesota, second; Duluth, third, distance 11-1/2 miles, time 7:55.

## CENTRAL AMERICA NOW HAS A WAR

Isthmian States are Settling Their Disputes in a Lively Fashion

Panama, July 15.—Unless the offer of mediation on the part of Mexico and the United States to settle the dispute between Salvador and Honduras on one hand and Guatemala on the other is soon accepted, all the Central American republics are likely to be involved in a war that will prove disastrous. The combined forces of Salvador and Honduras are attacking the main army of Guatemala and fighting has been in progress for the last two days, with advantage on the part of the attacking forces. The Guatemalan army is fighting a rear guard action and slowly retreating. Nicaragua has issued a warning to Guatemala that if she does not respect Nicaraguan territory that nation will soon take a hand also.

## PROGRESS ON THE CENSUS.

A partial report of the census commissioner will probably be ready by the end of this month. The commissioner will be able to give the most interesting part of the census, namely the population of our province, and no doubt the story will be encouraging as a definite and essential indication of growth. The census, however, provides for much more than the population of immigrants, their birthplace and occupation before coming to Canada, the date of immigration; the number of all classes of live stock; the amount of land devoted to the several field crops.

After the census sheets have been returned by the enumerators, the commissioner will make a summary report after which the whole information will be sent to Ottawa where it will be classified and detailed reports issued which may be obtainable by any ratepayer upon application.

## NOTHING DOING YET.

A rumor was current on the streets on Saturday evening to the effect that the C.P.R. authorities were preparing for the erection of a station and hotel on the corner of Jasper and Tenth streets. The Bulletin made inquiry at the offices of the C.P.R. this morning and was told that as far as the official knowledge there is no truth in the rumor which had evidently originated from the fact that work had been commenced on the new freight sheds. Mr. McPherson, right of way agent of the western division of the C.P.R. paid a visit to the city on Saturday, and inspected the site of the new freight sheds, and also the new offices of the company on Jasper avenue. As far as can be learned, however, no steps have yet been taken in connection with the erection of a station.

## SPLENDID GRAIN SAMPLES

Two splendid samples of grain were brought to the Bulletin office today from the farm of W. O. Lunn, Sturgeonville. One sample was from a 100 acre field of spring wheat and measured four feet; the other from a ten acre field of barley sown on breaking and measured three one-half feet. Both samples are splendidly headed out.

## LIST OF MATRICULANTS FROM ALBERTA COLLEGE

Successful Students From the College in the Recent Examinations of McGill University--Not a Single Total Failure in the List

The following are the results of matriculation examinations of McGill University as held under the direction of Alberta College. All those writing were students of the college. It is a matter of great satisfaction to the college and will be to the parents and students to know that there was not a single total failure in the matriculation work and only a very few partial failures.

The first water action over the fire is double depth, with bell-shaped flues, which also increases the surface directly displayed to the action of the heat.

We have increased its power enormously by making the walls of the fire pot slant inward along the fire. This gives a greater surface for the direct action of the rays of heat.

These are but two of the exclusive points which make the Oxford Hot Water Boiler the most economical and most efficient home-warming apparatus on the market. If you will drop us a post card, we will send you our catalogue, which explains the whole system.

### SUMMER COLLEGE TERM

The summer term of Alberta College is now open with a registration of over thirty. The curriculum comprises an entire commercial course and the term lasts for two months.

### THINKS WELL OF ALBERTA.

Col. T. H. Billman, commanding the 90th Rifles, Winnipeg, and drill instructor of the Winnipeg schools, is in the city, having come up on the C.N.R. in company with several other gentlemen on a prospecting tour. The colonel spent some days at Battleford, and is greatly delighted with the country between Battleford and Edmonton. Talking of the street car strike in Winnipeg, Col. Billman said that things looked very nasty for several days during the week that the strike lasted. The greater part of the mob which damaged the cars were foreigners and dangerous customers to handle. The C.M.R. regulars under command of Major Cameron, did good work. The 90th were called out on Friday evening but did not leave the armory, and were kept under arms there Friday night and all of Saturday and Sunday. The colonel says that the city was very fortunate in coming through the strike with as few riots as they had.

### SQUADRON PARADE TONIGHT.

Orders by Major S. C. Patin, A squadron C.M.R.

Parade—the squadron will parade at Calhoun & Ferguson's stable on Monday evening at 8 o'clock.

Dress—Drill order.

N. J. HARBOTTLE, Lieut.,  
 Acting Adj.

### THE RIFLE.

The C.M.R. match of Saturday, the last of the series, took place under fair conditions, although the heat of the afternoon was a little trying to some of the marksmen. Those who fired in the forenoon made better practice than the later squad, the following being the result:

Morning		
200	500	600 Ttl
J. Carmichael	31	30 31-92
G. A. Reid	33	31 28-92
W. Pearce	28	36 32-90
D. Bissett	24	31 31-86
W. S. Weeks	24	26 28-78
Afternoon

J. S. Lyon	26	22 21-69
H. Ritchie	18	22 20-60
L. Peel	20	26 14-60
Dr. Dunn	15	26 19-60
D. Munro	25	25 9-59
J. McKenzie	12	24 13-49
G. S. Armstrong	9	12 21-42

The following members have proceeded to Calgary to participate in the Territorial matches of July 17th to 20th: Messrs. G. A. Reid, P. McNaughton, J. Carmichael, W. S. Weeks, W. Pearce, J. McDonald and D. Bissett.

### Mange in Cattle

Farmers Sun, Toronto: In a recent issue of the Irish Homestead a writer takes some pains to impress upon its readers that the "dreadful melody" of red mange exists in Canada's cattle herds. He says the Government has ordered all herds to be dipped, and the writer takes this as a reason for the non-admission of live Canadian cattle into Great Britain.

It is true the mange has afflicted some western cattle, but stringent laws for dipping passed by the Dominion Government in 1904, have had their effect and the disease is almost stamped out. Veterinary Inspector Dr. Rutherford of Ottawa, in his annual report says that sporadic mange of cattle is well known in Great Britain, and anyone passing as an authority on live stock matters, who refers to it, as a malady likely to inflict loss or injury on the cattle industry of that country, is deficient in ordinary intelligence, or what is more likely in common honesty. It is a disease which yields readily to simple treatment, being in fact much more easily cured than the troublesome ringworm, with which British and especially Irish cattle are so often afflicted.

Dr. Rutherford goes on to say that not over five per cent of those treated were showing any disease and that the figures of the large number dipped represented the precautionary work of the Canadian people to maintain a high standard of excellence in their herds.

### New Liberal Association at Viking

A public meeting was held at Viking, about thirty miles southeast of Vegreville, on Thursday evening of last week, for the purpose of organizing a liberal association. There was an attendance of some thirty-five electors. The meeting was addressed by Duncan Marshall, who reviewed the work of the recent session of the leg-

islature and some features of the administration of affairs at Ottawa. At the close of the meeting it was decided to organize a liberal association to be known as the Viking Liberal Association. The following officers were elected:

President—Wm. J. Collison.  
 Vice President—John E. Kringan.  
 Secretary—Wm. Stowe.  
 Executive Committee—L. H. Kempp, Nelson Hagenson, and Ed. Cotter.

### AT COOKING LAKE

The season at Cooking Lake has begun and a number of Edmontonians already are in their cottages, and many more will follow this week.

Mr. J. H. Morris and family went out last Saturday.

A. Brown was out at the lake inspecting his steam launch and with Mrs. Brown will go out tomorrow.

Mr. K. A. McLeod took out his new launch last week. On Saturday she was launched and went on her trial trip which proved very successful. Mr. McLeod will take his family out tomorrow to their cottage for a two months' stay.

Judge Scott and family will occupy their cottage on Coney Island this week.

The summer boarding house is open and ready for the reception of visitors.

## IMMIGRATION AND LAND VALUES

Referring again to the immigration question the Calgary Herald tendered the following remarks to the Bulletin and says: "Whether a Government can honestly be said to produce conditions which were in existence before it assumed the reins of office may be doubted." Quite right. The Herald may rest assured that nothing is farther from the Bulletin's intention than to claim for the present administration the credit for the conditions which obtained in the west prior to 1896. The distinction that attaches to that era of blight and stagnation belongs unquestionably and unreservedly to the Government which was honored by the Herald's support. Liberals neither envy nor deny their political opponents the distinction of having propagated a policy which has done more to the most fertile half of the Dominion to unpopulated and unproductive solitude. Nor would they covet or minimize the consequences of that policy—consequences never more aptly epitomized than in the statement of the Herald that during the last year of Conservative rule, just 49 settlers entered the Canadian West.

The Herald however, sizes up the present situation correctly when it says: "So long as the tide of settlement is as strong as it is today there is no danger of 'the financial panic' which our contemporary suggests." So long as the incoming actual settlers continue to outnumber by overwhelming majority the immigrating speculators, no long will a "panic" in land values be impossible—so long and no longer. Hence the necessity of continuing the aggressive immigration policy which has alone been found capable of securing the settlers and the first homestead policy which has been and is the standing inducement to the settlers. Hence also the fatality to western land values and western prosperity of the proposals of the Herald's parliamentary friends; proposals that the immigration policy should be abandoned and the free homestead policy suspended. The market value of land depends on the demand for land and the demand for western land is created and maintained by the continuous immigration of men who want land to cultivate. Should the immigration of settlers cease, or should the proportion of settlers to speculators be reversed, the demand for land would lessen and the value of land would shrink accordingly. The justification of western land values depends, as the Herald suggests, on the continuance of immigration. The abandonment of the immigration policy, which the Herald's friends propose, means the destruction of those values.

## COUNCILS AND COMMISSIONS

The Calgary city council has decided to abolish the system of city government by commissioners as this has been known in Calgary and is known in Edmonton and will replace the board by two members of the city council. Commenting on the change the Alberta says: "After many years of sad and costly experience, a commission was found necessary in order that there might be continuity in municipal administration and because it was found that aldermen could not devote their attention to the details of business."

"For that reason the commission was appointed, of men who might be continuous, and whose office made it necessary for them to have a knowledge of the details of city administration."

"The council has not dealt fairly with the commission. Being largely composed of Aldermen with no municipal experience, many of them resented the fact that any others should have charge of the petty trifling details of office. The aldermen obstructed, opposed, embarrassed the commission at every turn, even though the commissioners did their work well and made no mistakes. One example will be sufficient. The commissioners, after careful and thorough consideration, recommended that certain concessions asked for by the Dominion Meat Company be granted. The council though having an opportunity of acquainting themselves with all the facts, turned the recommendation down without the courtesy of ordinary discussion. A few weeks later the applicant's appeal before the whole council and stated their case, though not as clearly or minutely as the commission had done. The members of the council reversed their decision without admitting voice."

In the same connection the Herald says in part:—"Some questioned the wisdom of establishing this body to do the executive work, which had hitherto belonged to the council. Several of the aldermen considered it led to an unnecessary delegation of duties which properly belonged to the committee. There are those who have doubted the wisdom of incurring the expense of the new machinery."

"As the months wear away the objections are multiplying. The problem is now, not the weakness of the commission principle, but the ability of the two men who serve on the commission board. These men have been tested and weighed in more than one municipal issue and they have not proved to the satisfaction of the public their ability to deal with the large interests of a growing city."

"The policy in Calgary throughout the year has been to prune off the powers of the commission, not because the more responsible work now undertaken in the council chamber could not have been done by the commission body but in view of the personnel of the board that is now in office."

It is worthy of note that the papers agree that the cause of the unsatisfactory administration is not the system of government by commissioners but the personnel of the city council toward the commissioners. Neither sees in the circumstances a sign of the failure of the system. Presumably neither doubts that with a qualified commission and a well disposed council the system would be found efficient and satisfactory. It is well that this should be clearly understood by the ratepayers of every city governed by a commission. This form of civic administration has been very widely adopted in the west in recent years and it is desirable that it should be understood that the first abandonment of the system is not because of a recognized failure in the principle itself but because of a lack of judgment in the application of that principle.

The causes to which is attributed the failure of the system in Calgary would wreck any system in Calgary or elsewhere and are by no means exclusively peculiar to the city of Calgary. Lack of ability, lack of experience on the part of commissioners must be fatal to efficiency, but not more certainly or speedily fatal than a needlessly hostile attitude of a city council toward the board or its members. The commissioners should be held to the full measure of their responsibility by the city council but this is very different from saying they should be made the victims of aldermanic badgering. The commissioners are the employees of the city council who in turn are the board of directors for the city and presuming the fitness of the commissioners for their position the council will get from them just the kind of service it deserves. The council which will back up its commissioners is likely to get in return loyal service which will make the administration run smoothly, but the council whose members find in their elective capacity only the opportunity for asserting their authority over the commissioners are likely to get little efficiency into the public service and little satisfaction out of it.

It should be recollected too that the less clearly the duties of the commissioners are specified in city charter or by-law the more are the commissioners forced to rely upon their judgment as to where their duties end and where their authority ceases, and in consequence the more deserving are they of consideration at the hands of the council. To say the least it is scarcely good taste for a council which cannot exactly define the duties of its board of commissioners to its own satisfaction to hastily censure the commissioners for not being able to satisfactorily interpret those duties for it.

## Edmonton's Rapid Growth

(Special edition, Edmonton's rapid growth)

Edmonton is situated on a high bank overlooking a curve in the North Saskatchewan river. It is small wonder that from the earliest visits of adventurous white men wandering far from the remotest confines of civilization, Edmonton's location has impressed all who visited it as a spot marked by Nature for the site of a great city.

It was more than a century ago, when the American republic was still in swaddling clothes, when "Canada" meant Quebec and Montreal—in 1795, to be exact,—when the Hudson's Bay traders founded a trading station on the north bank of the upper Saskatchewan River, and called it Fort Edmonton. Tradition has it that Edmonton was built to compete with Fort Augustus, a fur trading station which had been founded in 1783 by a rival concern known as the Northwest Trading Co. There is also a story to the effect that there was a third trading post in the vicinity known as the X L Trading Company, and if this be so it would seem that the rival merchants of a century ago were agreed as to the commercial advantages of the Edmonton location as a centre of communication. The railways of today seem to bear witness to the sagacity of the early traders.

It was almost a century after the Hudson's Bay trading post was established that the "boom" struck Edmonton, following the building of the C. P. R. line north of Calgary. But the railway stopped short at the river, hesitating at the heavy expenditure a bridge across the broad Saskatchewan would entail, and the northern terminus of the road was, and is, the town of Strathcona, on the south bank of the river. Until the entrance of the C. P. R. main line last fall, Edmonton was without a railway, although freight trains were run across the bridge originally designed for vehicular traffic and foot passengers only.

It was not until the days of the Klondike rush that Edmonton attained to any particular importance as a business centre. A good proportion of the multitude of gold seekers outfitted in Edmonton. Experience proved that the route north of Edmonton was a very unwise one to take, but it was from the days of the early Klondike rush that Edmonton dates its present commercial importance.

The little trading post is now a substantially built city of at least 11,000 inhabitants. Real estate men estimate a larger population, but the conservative, hard-headed business men say there are at least 11,000 people in this city. Every train coming in from the south and east is crowded with newcomers and the growth of population has so completely outstripped the building operations that hundreds of people are living in tents. It is no speculation to dream that next spring will probably see a population of 20,000.

Perhaps the best evidence of conservative business belief in Edmonton is the number of chartered banks that have located branches there. There are now eleven and others are projected. The banks already in Edmonton are the Montreal, Molesworth, Merchants, Commerce, Hamilton, Imperial, Traders, Northern, Dominion, Union and Nova Scotia.

The growth and prosperity of Ed-

monton depend upon the resources, developed and undeveloped, of the surrounding country. Perhaps in all Canada there is no district possessing more forms of natural wealth. For miles in all directions there is an immense area of arable land capable of sustaining great agricultural and live stock industries. The town itself is built on a vast coal bed, extending for miles up and down the river. On the banks of the Athabasca river there are known to be immense petroleum beds, expected to rival many of the largest in the United States. To the east of the Athabasca River are salt mines of very large extent. Practically every real estate office in Edmonton, and their name is legion—displays samples of gold, copper, zinc, iron, lead, silver and galena brought in by trappers and travellers from Northern Alberta. Up the Saskatchewan are timber limits of great extent, as yet scarcely touched by the Edmonton mills, and north and west millions of acres and pine in a country not yet even explored. Farther north is the fur-bearing country, a heavy consumer of Edmonton goods.

The fur trade, which was the first to be developed in Edmonton is still, perhaps, the first in importance. For years it was the practical monopoly of the Ancient and honorable Hudson's Bay Company, who, with their chain of trading posts, had an unequalled organization for handling this large and profitable business. But of late years opposition has appeared, and the fur trade is now shared by Revillon Bros. and McDougall & Secord. Coming into the field only some half dozen years ago, the big French house of Revillon Bros. has already established a chain of trading posts and has become a formidable rival of the Hudson's Bay Company.

The writer believes he has discovered the secret of the wonderfully rapid success of Revillon Bros. The other day when being shown through the firm's big wholesale warehouse he was introduced to the young Mr. Revillon, who is at the head of the Edmonton business. He found him, not in his private office, but down in the fur-packing room, lending an efficient hand in an emergency in the none too pleasant work of packing muskrat skins in bales. This young man, an heir to the Revillon millions, shows the spirit which animates the Revillon family and has made their immense business in Europe and Canada the great success that it is today.

In addition to their big fur trade, Revillon Bros. have established in Edmonton a big department store and a wholesale dry goods, grocery and hardware business which is doubling every year. A visit to their wholesale warehouse is a revelation to the visitor who never dreams of finding in Edmonton a wholesale establishment rivaling in every respect the big warehouses of Winnipeg and the east. He soon sees nothing impossible in the ambition of the firm to build up a wholesale trade that will rival that of the largest Winnipeg and eastern houses.

Edmonton's wholesale interests are as yet only in their infancy, but they give promise of a great development in the early future.

creased estimate. Fields of winter wheat that two weeks ago were thought to be worthless, have come to the front, stood out, and will, in spite of bad farming, make respectable yields. This is another evidence that Alberta, if given half a show, will prove herself to be one of the greatest of winter wheat raising countries. Some winter wheat is now heading out. June rainfall, 4.19 inches.

#### GRAIN GROWERS PLEASSED

The executive of the Western Grain Growers' association held a business meeting in the Lejand hotel, Winnipeg, a few days ago, when there were present, President D. W. McCaig; Portage la Prairie; R. C. Henderson, Culross; J. W. Scallion, Virden; W. G. Rogers, Carberry; and Secretary, R. McKenzie, of Brandon. The principal object of the meeting was to receive the report of D. W. McCaig and J. S. Woods, the representatives of the grain growers who were in Ottawa with a like delegation from Saskatchewan, to express the views of western grain growers as to grading and inspecting of wheat, before the agricultural committee. Mr. McCaig stated that he was well pleased at the reception the delegation received and reported that practically all the changes they suggested in the grain and inspection act were adopted by the government. The delegation also received the assurance from the department of trade and commerce that when grain is once presented for inspection the inspection must take place and be final.

The grain growers have always been opposed to "docking" wheat in transit, and will not rest satisfied until every vestige of opportunity for such "docking" is eliminated. The announced intention of the government of appointing a royal commission to investigate the alleged tampering with the quality of our wheat in transit between the terminals at Port William and the British markets, and to ensure the necessary change in the grading of wheat to meet the requirements of the British trade and eastern millers is a move that meets the hearty approval of the executive, the only thing needed to make it popular with grain growers is that the personnel of that commission be men in whom the producers have confidence, and who should be producers of grain. This movement was also brought about by the delegation.

#### AFFECTIONS BADLY DAMAGED.

## THE FULL TEXT OF AUTOMOBILE BILL

Act as Amended and Passed by the Provincial Legislature

An Act to Regulate the Speed and Operation of Motor Vehicles on Highways.

(Assented to May 9, 1906.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. Whenever the term "Motor Vehicle" is used in this Act, it shall be construed to include automobiles, locomobiles, and all other vehicles propelled otherwise than by muscular power, excepting the cars of electric and steam railways and other motor vehicles running only upon rails, or tracks; but nothing in this act contained shall be construed to apply to or effect bicycles, tricycles or such other vehicles as are propelled exclusively by muscular pedal power.

(2) For the purposes of this Act the word "owner" shall mean and include owners where a motor vehicle is owned by two or more persons jointly or in common and shall mean and include any person having any proprietary interest whatsoever in any motor vehicle in the Province and shall include any firm, partnership, association, corporation or joint stock company.

2. Every resident of this Province who is the owner of a motor vehicle, and every nonresident owner whose motor vehicle shall be driven in this Province, shall pay to the Provincial Secretary a registration fee for each motor vehicle. The Provincial Secretary shall issue for each motor vehicle so registered a permit properly numbered, stating that such motor vehicle is registered in accordance with this section, and shall cause the name of such owner, with his address and the number of his permit, to be entered in a book to be kept for such purpose.

Provided that the Lieutenant Governor in Council may, make regulations regarding the registration and operation of motor vehicles owned by manufacturers or dealers and not kept by such manufacturer or dealer for private use or for hire.

3. Such permits shall be issued from the office of the Provincial Secretary, and shall be subject to such conditions regarding renewals or transfers thereof, payment of such fees therefor or otherwise as the Lieutenant Governor in Council shall determine.

4. Every motor vehicle while being driven upon the public streets, public roads, parks or other public highways of this Province shall carry and have exposed on the said motor vehicle the permit issued as aforesaid by the Provincial Secretary, and shall also have attached to or exposed upon the back of the body of every such motor vehicle, securely fixed in a conspicuous place, the number of the said permit, so as to be plainly visible at all time during daylight, such number to be in plain figures not less than five inches in height.

5. Each and every motor vehicle shall be equipped and supplied with a proper alarm bell, gong or horn, and the same shall be sounded whenever it shall be reasonably necessary to be sounded for the purpose of notifying pedestrians or others of the approach of such vehicle, and all such vehicles shall carry in the front thereof a lighted lamp, or lamps, in a conspicuous position in such vehicle whenever in motion in any street, road, or public way, at any time after dusk and before dawn, every such light to display prominently upon the glass of the lamp or lamps in the front of such vehicle the number of the permit issued as aforesaid by the Provincial Secretary, and such numbers to be of such size and design and displayed in such manner as may be determined by the Lieutenant Governor in Council.

6. No motor vehicle shall be run upon any public highway within any city, town or incorporated village at a greater rate of speed than ten miles an hour, or upon any public highway outside of any city, town or incorporated village at a greater speed than twenty miles an hour.

Provided that the council of any city or town may by by-law set apart any public street or highway or any part thereof on which motor vehicles may be driven at any higher rate of speed than herein limited for the purpose of testing the same, and may pass bylaws for regulating and governing the use of any such street or highway or part thereof for the purposes aforesaid.

7. No person shall drive a motor vehicle upon any public street, highway, road, park, parkway or driveway in this Province in a race or on a bet or wager.

## STRATHCONA NEWS ITEMS

he Bulletin's Daily Budget From the Sister Town

Strathcona July 12.—Yesterday afternoon a baseball match took place at Rabbit Hill between the Strathcona and White Stars of Ellerslie baseball clubs. When time was called the Strathconas had five innings and the White Stars only four innings, yet the score was 10-6 in favor of the White Stars.

Dr. Dreger is still with Dr. L. L. Fuller awaiting the arrival of Dr. McQueen, when he purports leaving town and taking a post graduate course at Harvard University.

Mr. Charles Murphy and Miss Ruby Rule of Strathcona were married this week at the parsonage (Methodist) by J. C. Crawford of town and J. A. Bramer of Nebraska left town on the 4 p.m. C. & E. train for Calgary enroute to Spokane, U.S. and neighborhood where they hope to purchase three car loads of horses for export into Northern Alberta. W. E. Bishop of Strathcona will join them in Washington in a few days.

J. Stanton a farmer, in the Strathcona district of some twenty-five years experience reports very favorably on the prospects for good hay and grain crops. He considers the present prospects to be equal to, or even superior to those of past years.

Crickets, Strathcona vs. Bittern Lake. This cricket match took place last Wednesday at Wetaskiwin. The following is the score:

After the 1st innings Bittern Lake again batted and were disposed of for 48 runs.

Strathcona then handled the willow and for three wickets aggregated 37 runs Judge contributing 25 and Palmer 11.

The road to the R. R. Bridge at the point where it runs very close to the E. Y. & P. is very dangerous as there is nothing to prevent conveyances from rolling over the embankment. We hope the Strathcona council will give this matter their early attention and thus possibly save legal expenses as this part of the road does not seem to be in a safe condition for the travelling public.

The ladies aid in connection with the Methodist church purpose giving an ice cream lawn social at the residence of Mr. and Mrs. N. D. Mills on Tuesday evening next, July 17th, Whyte avenue west.

Tenders are being called for by W. H. Martin & Co. architects and builders for new residences for Mr. J. J. Duggan and Mr. Austin W. Fuller.

Mrs. Parks and Mrs. Milligan sisters of Mrs. Groat, Macdonald avenue left town this week for their homes in Ontario, after a long visit here.

**Why everybody  
likes Abbey's Salt.**

It is so pleasant to the taste that even children take it with pleasure.

It does not "cake" or flake on top of the water.

It effervesces slowly—may be drunk leisurely, without choking or blinding the user like sedlitz powders.

The granules all dissolve—thus the full benefit of the salt is obtained with every dose.

It is the ideal laxative and tonic to purify the blood—regulate stomach, liver, kidneys and bowels—and build up the system.

**A BAD FAMILY.**

(Special to The Bulletin.)

Kingston, July 14.—Sandy Badore, who is now serving a fourteen-year term in penitentiary for shooting and robbing a Syrian peddler, claims that two men who disappeared about a year ago were murdered by his brother Charles, and their bodies buried after being stripped of valuables.

**FLOODS IN MEXICO.**

(Special to The Bulletin.)

Dallas, Texas, July 16.—Floods in northern Mexico for the last ten days have done \$2,000,000 worth of damage, principally to railroad and mining interests in the states of Coahuila, Nuevo Leon, Tamaulipas and Chihuahua. Fourteen men were drowned near there and it is feared the loss of life in the surrounding mountain district is heavy.

**BAD STORM IN CHICAGO.**

(Special to The Bulletin.)

Chicago, July 15.—A severe wind and thunder storm struck Chicago today and as a result one person was killed by lightning and six others so badly injured that recovery is doubtful. The storm which raged for half an hour came up suddenly and caused destruction in all parts of the city. There were a number of persons fishing in the lake when from out a cloudless sky rain began to fall.

**FLEET WILL STAY AWAY.**

(Special to The Bulletin.)

St. Petersburg, July 16.—The proposed visit of the British fleet to Russia has been postponed until a more propitious time, next year.

**QUEBEC BUSH FIRES.**

(Special to The Bulletin.)

Quebec, July 16.—Bush fires are raging in this district and considerable damage is being done. The Lake St. John district seems to be particularly affected and a large gang of laborers left by special train to try and ex-

tinguish them. A fire which broke out on Knob Hill, which before the fire was occupied by the Croker mansion, has been given to the Episcopal church for the erection of a cathedral. This is the most valuable piece of residence property in the city.

**THE DAILY ASSASSINATION.**

(Special to The Bulletin.)

St. Petersburg, July 16.—General Kozlov was assassinated Sunday by a well dressed man, believed to have been either a student or professor. The general was riding when the assassin suddenly drew a revolver and fired three shots at Kozlov, all of them striking him in the body and causing instant death. The assassin stood calmly watching his victim until he was arrested. He declined to make any statement.

Odesa, July 16.—A bomb was exploded after midnight Sunday in the hall of the Cadet School and completely wrecked the entire structure, injuring a student severely. It is feared that an attempt has been planned to destroy the residence of Gen. Kaulbars and a heavy guard has been placed around the building.

**CHICAGO PACKER FOR ONTARIO.**

**FULL TEXT OF THE AUTOMOBILE BILL**  
(Continued from Page Six)

8. Every person having control or charge of a motor vehicle shall, whenever upon any public street or way approaching any vehicle drawn by a horse or horses, or any horse upon which any person is riding, operate, manage and control such motor vehicle in such manner as to exercise every reasonable precaution to prevent the frightening of any such horse or horses, and to insure the safety and protection of any person riding or driving the same, and shall not approach such vehicle or horse within one hundred yards or pass the same going in the same direction at a greater speed than ten miles per hour, or in the opposite direction at a greater speed than five miles per hour. And if any such horse or horses appear frightened the person in control of such motor vehicle shall reduce its speed and shall not proceed further towards such animal, unless such movement be necessary to avoid accident or injury, or until such animal appears to be under control of its rider or driver.

(2) Provided however that within the limits of an incorporated city or town the maximum speed allowed in passing such vehicle or horse going either in the same or an opposite direction shall be ten miles per hour.

9. Upon approaching a crossing of intersecting ways, and also in traversing the crossing or intersection, or in crossing a bridge, the person in control of a motor vehicle shall run it at a rate of speed less than that specified and not greater than is reasonable and proper, having regard to traffic and use of the intersecting ways or bridge.

10. Every owner of a motor vehicle shall be liable in damages for any injury or damage caused through horses becoming frightened at such vehicle unless all the provisions of this Act and all the regulations made hereunder by the Lieutenant Governor in Council are complied with the proof of which shall be on him; and the person in charge of such vehicle shall be likewise liable and any person suffering injury or damage as aforesaid may bring an action against such owner and the person so in charge as aforesaid or all or any one or more of them at his election.

Provided however that if the defendant in any such action shall prove that every reasonable precaution was taken by the person in charge of such vehicle at the time of the happening of the accident complained of he shall not be held to be liable.

(2) Nothing in this section shall be held to restrict the liability of any owner or person in charge of any motor vehicle for damage caused through acts other than the frightening of horses.

11. The Provincial Secretary may at any time suspend or revoke any permit or license issued under the provisions of this Act on account of any misconduct of the holder of such license or infraction of the provisions of this Act or regulations provided thereunder.

Cap. 26 MOTOR VEHICLES 1906

12. Any person violating any of the provisions of this Act shall upon summary conviction before a justice of the peace be liable to a penalty not exceeding fifty dollars, and in default of payment, one month's imprisonment.

13. This Act shall not apply within the limits of any city or town which has passed or may hereafter pass a by-law regulating the speed or use of automobiles upon the streets thereof except in so far as the provisions hereof are not inconsistent with such by-law.

### LACROSSE.

The defeat of the Edmonton team on Friday evening, told the same old story, lack of practice. What the team needs is good hard team practice twice a week, with every man of the team on the ground with his stick. A great deal of fault in the game on Friday evening lay with the field men, who seemed to be afraid of staying with their checks, and playing for the ball. Shaw was a new man in goal, but if the field men had stayed with the game, he would not have been called upon to keep three or four of Strathcona's home men out of the nets, let alone the ball. Shaw is a pretty cool head and will make good in flag after some practice. It is certainly up to the boys to turn out every practice night, and prevent a repetition of Friday evening's performance.

### EDMONTON VS. STRATHCONA

The first match this season for the Ochmer cup (won last year by Edmonton) was played in Edmonton on Saturday, and was won by Edmonton by 48 runs.

The first cricket club is again entering for this cup and their team is expected here on Friday, playing Edmonton and Strathcona on following days.

Inspector Worsley again scored highly and was well met with 33 to his credit when he was finally stumped by Reid. E. Slocock made 24, Berten made 31 between them, the innings closing for 62.

The Strathcona team began badly and lost nine wickets for 41. At this point however, Spilstead partnered Judge who had been batting in splendid form, and they were not separated until they had made 31 between them, the innings closing for 62.

A. H. Jones obtained seven wickets for 21 runs, two were taken by de Pass, while R. Palmer, the Strathcona secretary, was brilliantly thrown out by Wood in the second over of the innings.

The score in full of last Friday's cricket match, Edmonton vs. Pina Lake, played at Red Deer, were as follows:

### LOCAL

—The members of "A" squadron, C. M. R., will parade at the Armory in uniform this evening for foot drill.

—The shareholders of the athletic association meet in the office of Henry Fraser on Jasper avenue, this evening. Important business will be discussed.

—The Women's Missionary society of McDougall church will meet on Wednesday afternoon at three in the church.

—City workmen and teams are at work today on Sixth street, laying gravel.

—The annual Sunday school picnic of the First Baptist Sunday school will be held on Thursday afternoon.

—Rev. Mr. Ryder, pastor of First Baptist church, Fredericton, N.B., occupied the pulpit of the First Baptist church here last evening.

—Rev. W. Campbell, of Vancouver, who was to have preached in Queen's avenue church yesterday, was unable to come to the city, and the pulpit was occupied by Rev. James Douglas.

—The sum of \$36.50 has been paid over to egeant J. B. Robinson, who is in charge of the funds of the Boys' Brigade, being the amount collected by Master Arthur Carmichael.

—Mahara's Big Minstrel Carnival is billed to appear at the Thistle Theatre for two nights this week, commencing Friday evening.

—At the meeting of McDougall church Epworth League this evening, Rev. C. H. Huettner will give an address entitled "Brains and How to Use Them."

—Mr. E. S. McPhail, Dominion census commissioner, says the work of taking the census in Alberta is progressing with accuracy and despatch.

—Two inebriates were taxed \$2 and costs each in the police court this morning by Magistrate Cowan, for being drunk and disorderly on the streets yesterday.

—The members of both lacrosse teams are requested to turn out for practice this evening on Second street grounds, when the teams will line up for team practice.

—Mr. G. L. Lessard leaves today for two months trip to the east to visit his parents. He will also take in Montreal, Quebec and Halifax and points in the eastern states, returning by way of Chicago.

—Sydney Huff, of the firm of Huff & Buchanan, extensive coal dealers of Detroit, Mich., is in the city, paying a short visit to his cousin, James Huff, Third street. This is Mr. Huff's first visit to Edmonton and he expresses himself as delighted with the city and surrounding country.

—After the lacrosse game on Friday evening, through some mistake, the Strathcona team carried away several sticks belonging to the Edmonton boys. The Strathconas would confer a favor on the Capitals by returning them at their earliest convenience.

—The marriage will take place on Wednesday of this week of Miss McConeghe, of this city, to Rev. Mr. Ryder, of First Baptist church, Fredericton, N.B. The ceremony will be performed by Rev. Mr. McDonald, of New Brunswick, who is at present supplying the pulpit of the Calgary Baptist church.

—Calgary Herald: Evidently the Calgary people do not intend to be beaten by Edmonton when it comes to backing their opinions. As announced in the Herald yesterday morning, an Edmonton gentleman backed Edmonton for \$500. A well known Calgary hotel keeper has gone one better. He will back Calgary for \$1000, or any part of it.

—The death occurred in the general hospital on Friday of Luc Authier, a well known resident of the city, and an owner of considerable property. Mr. Authier was about fifty years of age. Death was due to heart failure. The funeral took place this morning from the parlors of Moffat & McCoppen to St. Joachim's church.

—Another set of Japanese curios was received by John McDougall on Saturday evening from his father John A. McDougall. The souvenirs were four Japanese bank notes, used only during the recent war, and the equivalent in Canadian money of 50c, 25c, 10c and 5c, respectively. The gentleman from whom Mr. McDougall obtained the curios, says in a letter, that in all probability the notes will soon be in use again, as everything points to another set of Japanese curios.

—The city commissioners have closed the contract with the City Coal Company. The strike is settled and fifteen miners are at work at the company's mines. The company is purchasing new drilling machinery that will largely increase the output of the mine and insure a sufficiency of coal for the city's use. The company is opening a new road from the continuation of Jasper avenue extension along the river front to the mouth of Rat Creek. This will do away with the roundabout haul by Norwood school as heretofore and give direct access to the city.
